OneView

Defence planning, mobilisation, readiness, and deployment, all in one military-grade solution

Defence forces are evolving rapidly, especially in security-sensitive sectors like defense. OneView streamlines personnel planning, ensuring readiness, compliance, and efficient deployment. With real-time oversight of movements, drills, and risk assessments, it enables informed decisions for improved operational outcomes.

Unified Source of Truth

Access reliable, real-time data. OneView eliminates spreadsheet overload and siloed systems, ensuring streamlined defence operations.

Rapid Response

Identify key personnel by role, clearance, experience, and location for rapid deployment in defense, emergencies, or strategy.

Secure Deployment

Ensure only certified, cleared personnel deploy, with integrated travel and risk management for safe, cost-effective defense operations.

Readiness and Mobilisation

Maintain readiness with real-time updates and efficient resource allocation, ensuring rapid response and effective defense deployment.

Simple yet Secure Integration

OneView's open API reduces administrative burdens, improving data interoperability and eliminating inefficiencies in defence operations.

Why OneView

- **Mobilise faster** by deploying the right personnel at the right time
- **Optimise joint operations** with multi-force, multi-discipline coordination
- **Ensure mission readiness** with verified skills, experience, and equipment tracking
- **Reduce deployment costs** by preventing misallocations and travel inefficiencies
- **Strengthen force collaboration** with accurate, real-time personnel data
- **Secure your operations** with private, defense-grade cloud infrastructure
- Enable **timely communication** using My OneView
