Flexiroute | **Parent App**

Transforming School Transport with Visibility, Safety & Control

Safety, efficiency, and real-time information are essential in school transport. The Flexiroute Parent App delivers a smarter, connected solution for home-to-school journeys. Integrated with the Flexiroute platform, it gives parents peace of mind and councils the control and insight needed to manage transport with confidence.

What Parents Get

Real-Time Tracking
Live updates of school vehicles with estimated time of arrival (ETA).

Push Notifications
Alerts for delays, early arrivals, and route changes.

Journey Transparency
Instant visibility into pick-up and drop-off confirmations.

Secure Family Management
Manage multiple children, contacts, and addresses from one account.

Simplified applications
Pre-filled transport forms, simple appeals, and full tracking — from application to bus pass issuing.

How Councils Benefit

- **Cost-Efficient Operations:** Optimised routes cut fleet size, fuel use, and costs.
- **Greater Transparency:** Real-time tracking ensures clear oversight and accountability.
- **Data-Driven Planning:** Analytics reveal inefficiencies and guide smarter allocation.
- **Enhanced Safety & Compliance:** Live alerts and monitoring boost safety and standards.
- **Scalable & Future-Proof:** Expand easily across schools, districts, or regions.
- **Supports Sustainability Goals:** Route optimisation lowers emissions and promotes greener travel.
